Decentraland is another Metaverse candidate that grapples with this very issue. Dave Carr of the Decentraland Foundation tells me that the founders decided that “rather than have these environments be controlled by central bodies, they should have a decentralised structure and be open to everyone to own and govern.” From economic matters, to content moderation and even the maintenance of its servers, Decentraland’s user base dictates its entire policy course through regular votes.

A good year or so I wrote an article called ‘What is Roblox?’. At the time I was new to the game that my young son had started playing and thought it a good idea to educate people on what the ‘game’ actually was. After playing with my son for over a year on Roblox I felt it was time to rewrite the article as there is plenty that the original didn’t cover.

The Apple vs Epic Games trial, which took place in May and whose verdict is expected later this year, could wind up being just the first of many similar clashes. The court battle started last year, when Apple removed Epic’s Fortnite from its App Store after the developer had engineered a system to prevent Apple from taking a 30 per cent commission on Fortnite sales to iPhone users. Epic’s defence was couched in the language of worry about how Apple’s behaviour could affect and shape an emerging Metaverse.

The team at Roblox are well aware of how important it is to protect their users and provide a range of tools to help parents with this. These filters include who can contact and chat with any given account, setting up a PIN to restrict access plus two-factor authentication. For all of the available tools visit the official Roblox for parents webpage.

In 2006, Baszucki and Cassel launched Roblox Studio. It was, in Bronstein’s own phrasing, an “immersive creation engine”, blending gaming, creation, and social networking. Roblox might have the veneer of a video game, but it’s perhaps more accurate to describe it as a set of tools its users can wield to build their own video games (or “experiences” as the company sometimes refer to them), to be hosted on the Roblox platform. These creation tools are designed to be less daunting to the entry-level developer than professional game engines, and fully customisable frameworks exist across numerous genres. These include maze-runners, first-person shooters, tycoon simulators, and free-form “roleplay” genre, where developers create worlds – schools, cities, historical eras, sci-fi dystopias, etc – for users to project their own stories onto, informed by their interactions with the setting and other users.

You could set up a private party in Roblox’s dedicated space, which can almost feel like a virtual rave. But I’d expect that more Roblox birthday parties look like a bunch of friends opening up the app, partying up, and just jumping from game to game and world to world right from the launcher. In the span of an hour, you can hop through all kinds of different experiences because the app loads everything really quickly, which means it’s pretty easy to replicate the chaotic energy of a real kids’ birthday party.

Roblox incidentally participates in occasions to advance movies, for example, ones held to advance Wonder Woman 1984 and Aquaman. In 2020, Roblox facilitated its first virtual show, which was contrasted by Rolling Stone with that of American rapper Travis Scott’s virtual show in Fortnite, during which American rapper Lil Nas X appeared his tune “Monter” to a group of people of Roblox players. In 2021, Swedish vocalist Zara Larsson performed tunes at a virtual gathering to commend her new collection Poster Girl.

The most lucrative (and most difficult) way to make Robux in Roblox is to create your own game and monetize it in a number of different ways. Games that offer special upgrades, premium services, completely unique items, and include advertisements tend to make a ton of money.

Option one is to buy them directly via the Roblox website or app. If you already have a card or Paypal account linked to the device this is an easy and secure way to buy Robux, just remember not to let your kid have access to your passwords linked to payment or you risk having your bank account cleared out!

All of this may well be intriguing, but does Roblox actually represent a Metaverse? Bronstein thinks so. "These experiences are not just in a single category, like gaming. In fact, we see them as a combination of media, gaming, entertainment and commerce, and the future of social interaction."

It's a sad but true fact that where there is money to make you will always find the worst kind of people and Roblox is no exception. There are lots of people out there who will try to gain access to your Roblox account through various means and attempt to make money from it.

I... don't actually know! I don't think there's any one Roblox object, like a Minecraft block. I guess it could refer to the fact that Roblox lets you build games that you can then explore?
